GTOA SERIES

Stainless steel hammer-end, Ergonomically engineered construction, Soft-grip handle, Dual color hilt,hardened stainless steel blade, Flexible/Stiff/Ultra Heavy Duty Blade available.

Stainless Steel Head
A perfect hammer-end which is molded into injection with ultra thickness of stainless steel to ensure your striking nails more correctly and easily.

Polypropylene Main Body, Molding Injection With Blade and head
A specialized technology in mold to proceed into one-boby injection with blade and head to guarantee the structure never been loose and separated.

Strip-Cavity
A outstanding design in the hollow cavity with stripy contour to prevent your finger from slipping forward and to make your work more comfortable.

TPR Soft Grip Handle
An ergonomically engineered feature with TPR soft grip and textured polypropylene to decrease your hand fatigue and to provide you a more powerful scraping and taping.

Stainless Steel Blade, Fully Hardened, Precision Ground, Mirror Polish
A best combination with rust resistant steel and specialize finish to ensure the finest quality.
